The world's first and only integrated safety gate latch and alarm.

MagnaLatch® has set the standard for child safety gate latches for more than 25 years. We've sold millions of this Aussie invention worldwide. Now the MagnaLatch® ALERT models set entirely new levels for safety gates around swimming pools, childcare centers, schools, homes or wherever child safety is critical. The MagnaLatch® ALERT offers dual electronic warnings: bright, flashing LED lights, and an audible alarm that sounds if a gate is opened or left unlatched. So you can see at a glance, and hear from a distance, if your gate is not secured.
