COLOR

Black

Optional Base Plate
(Available In Black Only)

The Q-Bolt is a stylish and affordable drop bolt solution, providing higher quality options than current mild steel or stainless steel drop bolts. Q-Bolt is key-lockable and available in two lengths: 24" and 40" (610mm-1016mm). The Q-Bolt is made from high-grade stainless steel that has gone through an electro-polishing process to add to its rust-resistance. It is then powdercoated black to further protect it from corrosion.
