CHOOSE COLOR

1" Wall Mounts (Residential Fencing)

1 1/4" Wall Mounts (Commercial Fencing)

1 1/2" Wall Mounts (Industrial Fencing)

Wall Mounts are used to secure fence sections to any vertical surface such as columns or existing posts. Fixed mounts do not allow for any adjustment. Universal mounts allow for horizontal OR vertical adjustment up to 45 degrees in any direction.

Because our customers attach to several different materials we DO NOT supply mounting screws. Mounting screws can be purchased at your local home improvement store.
